### What the Data Tells Us - School Climate Surveys and Other Data

As part of the on-going monitoring and evaluation process, schools gather data from a various of sources, including school climate surveys of students, staff and parents every two years. Our school data indicates the following:

|                |   |
|----------------|---|
| <b>STRENGT</b> | <p>81.1 % of students feel most of the time students are friendly</p> <p>36.9% of students sometimes feel supported when they are experiencing some unusual emotion and 23.4% students feel always supported</p> <p>47.9% of students feel safe always and 37.6 feel safe most of the time</p> <p>95.0 % have not been bullied at all at school</p> |

Based on the analysis of various sources of data, our school has identified specific bullying prevention and intervention goal statements for this school year. These goal statements will drive our actions for this year. Outcomes will be monitored and assessed using a continuous improvement cycle.
